Instructor Comments

Describe the one best thing about the lab section or the instructor that was effective in helping you learn. If you could suggest one thing to improve the section, what would it be?

- He was very responsive whenever I asked question thru email or office hours. He was a really fantastic teacher and explained everything in so much detail during the lab sections- it was a pleasure being in his class. I wasn't a fan of the location of the lab section (beneath starbucks).
- The TA was good.
- He was able to help us understand problems and how to solve them properly. I think he overall was very helpful.
- The lab was very helpful to learn materials that were uncertain from class. Sometimes the recitation leader could not fully explain my question.
- Took the time to ask which questions were important to us. Could improve by covering more of the theory that was poorly explained in class.
- Running through problem sets, revision of exam concepts. Instructor can be more familiar with problem sets beforehand
- Nothing, everything was good!
